

FolStack™ CEREAL

CROP-SPECIFIC FOLIAR NUTRITION

Feed the Crop When Demand Peaks.

FolStack Cereal delivers balanced nutrition directly to leaf tissue during key in-season growth stages—supporting stronger, more uniform cereal crop development.

HOW FOLSTACK CEREAL WORKS

DELIVER BALANCED NUTRITION

1

Provides nitrogen, phosphorus and potassium in a balanced 10-10-10 formulation.

SUPPORT NUTRIENT UPTAKE

2

Foliar delivery places nutrition directly on active leaf tissue during crop growth.

STRENGTHEN CROP VIGOUR

3

Supports healthy plant development and a more uniform cereal stand.

MAXIMIZE CROP POTENTIAL

4

Helps meet crop demand during key in-season growth stages.

KEY BENEFITS

- ✓ Balanced 10-10-10 nutrition
- ✓ Crop-specific cereal formulation
- ✓ Supports plant vigour
- ✓ Promotes uniform crop development
- ✓ Fits in-season management programs

BEST FIT

WHEAT

DURUM

BARLEY

OATS

RYE

Use from the 3–4 leaf stage through early bloom.

HOW TO APPLY
