

FolStack™ BRASSICA

CROP-SPECIFIC FOLIAR NUTRITION

Feed the Crop. Support the Bloom.

FolStack Brassica is a premium foliar fertility solution developed specifically for canola, mustard and other brassica crops. It combines balanced macronutrition with added sulphur and bio-enhanced plant-growth support for key in-season stages.

HOW FOLSTACK BRASSICA WORKS

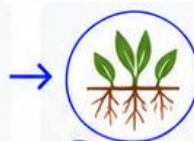

DELIVER COMPLETE NUTRITION

- 1** Provides nitrogen, phosphorus and potassium with added sulphur in a 10-10-10+4 formulation.

SUPPORT NUTRIENT UPTAKE

- 2** Foliar delivery places nutrition directly on active leaf tissue.

STRENGTHEN CROP VIGOUR

- 3** Supports healthy crop development through key vegetative stages.

SUPPORT REPRODUCTIVE GROWTH

- 4** Helps meet nutrient demand as the crop advances toward flowering.

KEY BENEFITS

- ✓ Balanced N-P-K plus sulphur
- ✓ Crop-specific brassica formulation
- ✓ Supports plant vigour
- ✓ Supports flowering and crop development
- ✓ Fits in-season management programs
