

AnneMaxx®

ADVANTAGE + ENHANCE+

TWO-PART LIQUID BIOLOGICAL SYSTEM

Activate Biology. Improve Nutrient Mobility.

Advantage supplies diverse biology. Enhance+ adds amino acids, phosphorus, potassium and organic carbon to activate nutrient release and support crop performance.

HOW ADVANTAGE + ENHANCE+ WORKS

ADD THE BIOLOGY

- 1** Advantage supplies diverse beneficial microorganisms in a stable dormant form.

FEED THE SYSTEM

- 2** Enhance+ delivers amino acids, phosphorus, potassium and organic carbon.

ACTIVATE TOGETHER

- 3** Blend 3 parts MA1 with 1 part MA3 immediately before application.

SUPPORT THE CROP

- 4** Active biology improves nutrient mobility, root activity and crop access.

KEY BENEFITS

- Two-part biological system
- Supports microbial activity
- Improves nutrient mobility
- Builds root and early growth
- Supports reproductive stages

USE ENHANCE+ WHEN IT MATTERS MOST

POST-HARVEST

Begin feeding soil biology

EARLY SEASON

Support roots and uptake

VEGETATIVE GROWTH

Strengthen nutrient efficiency

FLOWERING

Support reproductive demand

HOW TO APPLY

- Mix 1 L/ac MA3 with 3 L/ac MA1.
- Add 10–16 gal/ac water.
- Apply in soil or as a foliar spray.

 Compatibility test before tank mixing. Do not freeze.

ANNEMAXX® ENHANCE+ COMBINES ADVANTAGE

MA1 Worm-casting-derived microbial foundation.

ENHANCE+ Amino acids, phosphorus, potassium and organic carbon.

N-P-K ANALYSIS

3-6-3 Balanced nutrition that activates biology.

L TOTES

1,000 Available in 1,000 L totes.

Wake the biology. Put nutrients in motion.
